About Tea

Tea is the most consumed aromatic beverage in the world.

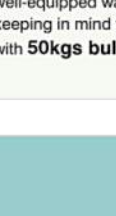

In 1780, TEA cultivation was experimented in India. Today, India is one of the largest tea producers in the world, with over 70% of the tea is consumed within India itself!

A number of renowned teas, such as Darjeeling, also grow exclusively in India.

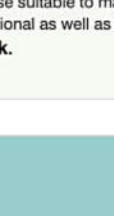

Be it Black Tea, Green Tea, White Tea or Oolong Tea, each of them comes with power packed health benefits.

Types of Tea

As per the how the tea is processed, it is divided into different categories. The most common are White, Green, Oolong and Black

WHITE
Withered and Oxidized

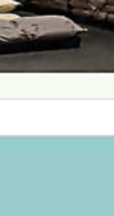

YELLOW
Withered and Oxidized, but allowed to yellow

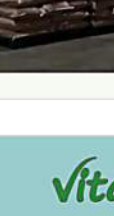

GREEN
Undergoes minimal oxidation during processing

OOLONG
Withered, Bruised and partially Oxidized

BLACK
Withered, fermented crushed and fully oxidized

POST FERMENTED
Green Tea that has been allowed to ferment / compost
